Helping Children with Disabilities in Cusco, Peru

Our main focus...

In Cusco, Peru, lack of social support, limited opportunities for Education, Employment and Participation in the Community isolate disabled children and their families, leading to increased levels of stress and hardship. They are also often targeted by abusers, who see them as easy victims.

We want to give these kids the place that they deserve in the community, and help them gain the independence they need to have a better future.

Our purpose...

- To bring these children to a new environment where they can interact with other kids and know new places.
- To teach them an occupation that will allow them to earn a profit for themselves and their families.
- To create an interaction program between you and the children, and spend an amazing day with each them, making Traditional Peruvian Handcrafts that later you could purchase for a voluntary donation, and also participating in their daily recreational activities.

How you can help us...

Visiting the children and spending time with them is the most important thing you could do for our project. Our interaction program will invite you spend a full

day with the kids and have the opportunity to create a project of your choice along with them; you could decide later if you want to purchase it and take a memory of your time with them home.

Your contributions will allow the children to earn some income for them and their families, and at the same time will allow us to continue with the growth of the project.

We promise you an unforgettable experience along with your visit to one of the Cultural Capitals of the World. These kids need you, please sign in for our program!
